

The Clay Center Street Department is accepting sealed bids from Monday November 4, 2024 until February 3, 2025 at 10:00 AM for a 1982 Caterpillar 120 G articulating frame motor grader. The motor grader diesel engine has approximately 10,072 operational hours but is very solid. It starts and runs very well but has some minor leaks. It appears not to consume oil and holds very good oil pressure. The unit does have some surface rust but nothing to affect the operation of the machine. The 1300 x 24 tires have approximately 75 % tread life left. The machine has a 12 foot mole board. The circle wear blocks were replaced 3 years ago and show no wear on the new wear blocks. One set of new replaceable mole board bits will be sold with the machine as well as a set of scarifier teeth.

The City of Clay Center will set a minimum bid at \$ 16,000.00 due to the above average condition of the unit.

The motor grader will be sold as is with no warranties to the buyer. All bids shall be submitted to the Clay Center City Clerk, 427 Court Street in a sealed envelope marked "Street Department Equipment Disposal Bid". The sealed bids will be publicly opened and read by the City Clerk in the Council Chambers on Monday, February 3, 2025 at 10:00 AM.

The street Department retains the right to accept or reject any and all bids.

Call the Clay Center Street Department at 785-632-3818 to arrange to have unit started or to answer any questions.
